Dear Sir/Madam

BROUGHTON VILLAGE IMPROVEMENTS - RESTRICTED PARKING ZONE

I wrote to you in August 2018 regarding proposals for a Restricted Parking Zone within Broughton as part of the ongoing highway improvements within the village. Such a zone would remove the need for double yellow lines. Parking restrictions would instead be clearly marked with signs at the entry and exit points, along with repeater signs within the zone.

All the comments received during the informal consultation have been carefully considered and the proposals have been amended following some of the issues raised by residents and businesses. This includes an additional length of on-street parking bay for short term parking. The amended proposals are shown on the plan enclosed with this letter.

These proposals will now be formally advertised on site as part of the legal process necessary for the Restricted Parking Zone.

Please send any representations or objections regarding the proposals to The Director of Corporate Services, Lancashire County Council, P O Box 78, County Hall, Preston PR1 8XJ or by e-mail to tro-consultation@lancashire.gov.uk quoting reference LSG4\894.9114\AFR before 22 March 2019.

Yours faithfully

David Davies
Senior Highway Engineer
