### **Call in for the Place of Worship south of Durton Lane**

Broughton with Amoulderness Parish Council is opposed to the proposed Place of Worship development at Durton Lane due material planning considerations, including harm to open countryside. The Parish Council is committed to bringing about future development in accordance with its adopted Neighbourhood Plan, which was progressed over several years with consensus of the local community. The Parish Council's view that the proposal is not in accordance with the Neighbourhood Plan, or indeed policies at the national and local level. Rather than being built speculatively, an important place of worship development such as this should come through a more strategic local plan process with a proper approach to site identification.
